HOW TO IMPROVE IVF SUCCESS RATE

CREDITI ECM 8

14 december

- 08:00** Registration of participants
- 08:30** Opening address: Prof. E. Greco, Prof. A. Redler
Chairmen: M. Moscarini, H. Valensise
- 09:00** Predictive biomarkers of ovarian response • (A. La Marca)
- 09:20** Pharmacogenetics and ovarian stimulation: clinical application and cost/ effectiveness • (C. Alviggi)
- 09:40** Oocytes vitrification to improve IVF results • (J. Remohi)
- 10:10** Oocytes competences assessment to predict embryonic reproductive potential (L. Rienzi)
- 10:30** **Coffee break**
Chairmen: V. Gentile, A. Lenzi
- 10:50** Morphokinetics analysis of embryos: future perspectives • (N.B. Ramsing)
- 11:10** DNA-microarray and next-generation sequencing analyses of single blastomeres to study aneuploidy in human cleavage stage embryos • (T. Voet)
- 11:30** Standardization and feasibility of non invasive embryos assessment • (E. Seli)
- 11:50** Significance of DNA sperm fragmentation and clinical implications • (J. Tesarik)
- 12:10** IMSI: benefits and disadvantages • (I. Virant-Klun)
- 12:30** Fertilizing potential of testicular sperm • (G. Franco)
- 12:50** Discussion
- 13:10** **Lunch**
Chairmen: P. Benedetti Panici, E. Casaletti
- 15:00** Endometrial receptivity and implantation window in IVF • (C. Simon)
- 15:20** Markers of impaired endometrial receptivity • (A. Revel; H. Achache)
- 15:40** PGS and clinical results • (F. Fiorentino)
- 16:00** Rational for acupuncture utilization in female and male infertility (C.M. Giovanardi)
- 16:20** Acupuncture as a strategy to improve IVF outcomes • (A. Guli)
- 16:40** Discussion
- 17:00** Closure

STRATEGIES TO IMPROVE ART RESULTS

CREDITI ECM 5

15 december

- 08:00** Registration of participants
- 08:30** Opening address: Prof. E. Greco
Chairmen: M. Baldi, E. Greco
- 09:00** Poor ovarian reserve and implantation failure: potential treatments (N. Gleicher)
- 09:30** Is there a correlation between ovarian stimulation protocol and implantation? (P. Platteau)
- 10:00** Preimplantation genetic screening of chromosomal aneuploidies as a first line test for good prognosis patients • (F. Fiorentino)
- 10:30** Immune response, implantation failure and recurrent pregnancy loss (A. Makrigiannakis)
- 11:00** **Coffee Break**
Chairmen: A. Fabbri, A. M. Isidori
- 11:30** Utility of hysteroscopy in an IVF program • (J. Pundir)
- 12:00** Embryo and endometrium cross-talk: molecular aspects • (Y. Koot)
- 12:30** Preimplantation Factor (PIF):biological role and evidence for its value for embryo selection in IVF (M. Varla-Leftherioti)
- 13:00** The role of GM-CSF in assisted reproduction (R.K. Nielsen)
- 13:30** Discussion and conclusion
