Antonio La Marca

- Prof Antonio La Marca
- Clinica Eugin and University of Modena and Reggio Emilia-Italy

Antonio La Marca is professor of Obstetrics and Gynaecology at the Mother-Infant Department of the University of Modena and Reggio Emilia, Italy and he is the medical director of Clinica Eugin Modena, Italy.

He graduated in Medicine and Surgery at the University of Siena in 1996, specializing in Obstetrics and Gynaecology at the same institution in 2001. In 2000, he obtained the PhD on Biology of germ cells. He has been working at the Institute of Gynaecology and Obstetrics of the University Hospital of Modena since 2003. His clinical activity covers all the field of Reproductive Medicine and Surgery and has taken part in thousands of IVF, laparoscopic and hysteroscopic surgical procedures.

Present scientific interests include: ovarian reserve and pharmacological manipulation of ovarian activity. His "most impacting" articles were on the physiological significance of AMH and AFC, their measurement and clinical utility. Moreover he has published a long list of original articles dealing with the prediction of ovarian reserve and response in IVF and the personalization of ovarian stimulation protocols. He is author or co-author of 146 articles published on peer-reviewed journals and authored many chapters on national and international textbooks. He has been invited speaker in more than a hundred international congresses.

He is involved in several phase 3 and 4 trials as Principal Investigator and is recipient of many research funds competitively assigned. He is active member of many national and international professional and scientific societies and consultant for Italian Ministry of Health for infertility related issues.
